E-Commerce Product Page Assignment

E-COMMERCE PRODUCT PAGE ASSIGNMENT

🎯 OBJECTIVE:

Build a responsive e-commerce product page using CSS Grid, Flexbox, Media Queries, and Animations.

📋 REQUIREMENTS:

① Header:

- Create a navigation bar using Flexbox with a logo and menu items.
- Apply hover effects to navigation links.

② Product Section:

- Display products using CSS Grid (4 columns for large screens).
- On smaller screens:
  - Tablet: 2 columns.
  - Mobile: 1 column.

③ Buttons & Animations:

- Add hover effect to buttons (color change + scale).
- Add fade-in animation for products when the page loads.

Example Animations:

④ Responsive Design:

- Use media queries for breakpoints at 1024px and 768px.

⑤ Styling:

- Apply Google Fonts.
- Use background colors and a clean, modern layout.

💡 **NOTE:** Make sure your page is fully responsive, visually attractive, and all hover effects & animations work smoothly.

Implementation Details

1. Header

Create a responsive navigation bar using Flexbox with Logo, Navigation Links, Search Bar, User Icon and Cart Icon. Add hover effects.

2. Hero Section

Build a promotional banner with title, heading, description and Shop Now button.

3. Featured Products

Use CSS Grid. Each card includes image, discount badge, name, category, rating, prices, wishlist icon and Add to Cart button with hover animation.

4. Services

Create Free Shipping, Secure Payment, Easy Returns and 24/7 Support cards using Flexbox.

5. Footer

Add Company Info, Quick Links, Customer Service, Newsletter and Social Media.

Responsive Design

Desktop: 4 columns, Tablet: 2 columns, Mobile: 1 column using Media Queries.

Required CSS Features

Use CSS Grid, Flexbox, Media Queries, Google Fonts, Hover Effects, Transitions, Animations, Border Radius and Box Shadow.

Animation Requirements

Buttons scale on hover, cards lift on hover, navigation hover effects and fade-in animation on page load.

Submission Notes

Use semantic HTML, clean code, modern UI and match the reference design as closely as possible.
